

Just go ahead and sell this land  
if you can. Although I would love  
to own it, just for I just can't see  
how can I spare money just now.  
Please don't think hard of me, I sure  
would love to do it for Mary's sake.  
She loves trees so. Our taxes are  
so high yet and it just seems like  
we can't get on our feet again.  
Mary and I work hard and try to save  
all we can. We have 4 fine children  
which we are proud of. I am so hoping  
forward to being with you all this summer  
you will find that they love real things  
and nature. Marylee, Donald remember  
all of you of course the other 2 are just  
as happy about coming to see you all  
as we speak of you all every day. Write us  
some time when you can we are  
always glad to hear from you and mother

Love from us all.
